

Prodigy Data Systems obtains PrescribersConnection's Long Term Care 10.6 Certification

December 30, 2014 – Prodigy Data Systems, Inc. received the LTC Partner Certificate of Compliance by PrescribersConnection®, LLC. This new Healthcare industry designation recognizes Prodigy's commitment to the Long Term and Post-Acute Care (LTPAC) industry, LTPAC Shared Patient Model, and adherence to NCPDP Script 10.6 initiative due by November 1, 2014. PrescribersConnection welcomes Prodigy as an 'Early Adopter' of the LTC Workflows and Standardization effort underway.

"We are pleased to announce our relationship with PrescribersConnection, which in turn will help reduce the burden placed on pharmacies by having to typically invest in multiple eHR/eMAR interfaces." says Tim Fitchett, VP Product Development, Prodigy Data Systems, Inc. "The Prescribers Connection model allows Prodigy to supply one interface that can handle any eHR/eMAR vendor that is equally certified. In the end this will save pharmacies time and money."

Prodigy's PROscript 2000 v5.2 was certified as of 12/29/2014 by PrescribersConnection in accordance with standardized integration requirements meeting the applicable certification criteria. To successfully pass the PrescribersConnection LTC Certification, Partners must complete rigorous and thorough certification tests within these 4 key areas:

1. Long Term Care Workflows {Census, NewRx, RxFill, Resupply, CancelRx and Response }
2. PrescribersConnection Application Integration Requirements
3. PrescribersConnection Script 10.6 Implementation
4. Connectivity through PrescribersConnection Network

About Prodigy Data Systems, Inc.

Prodigy provides cost effective, user-friendly Long Term Care software solutions so pharmacies may achieve rapid growth and success without being burdened by outside software expenses. To learn more about Prodigy Data Systems, Inc., please visit: <http://www.prodigydatasystems.com/>

About PrescribersConnection®, LLC.

PrescribersConnection is a developer and marketer of electronic prescription (ePrescription) software solutions that automate the prescription fulfillment processes for healthcare organizations and pharmacies. In addition to our Retail Network, the PrescribersConnection LTC Network is a linked network of Long Term and Post-Acute Care facilities, prescribers, and pharmacies delivering fast and reliable electronic transport of census information, new orders, fill confirmations, resupply requests, and discontinued medications.

It is ONE connection providing facilities with access to ALL pharmacies and prescribers within the PrescribersConnection Network. It is ONE set of standardized workflows for all facilities, prescribers and pharmacies. It is ONE certification process to enable sending to all pharmacies on the LTC Network.
